“The Cliffs of Berwick “

Grade Moderate

We give you location grid references and easy questions to answer. All you have to do is walk the trail, collect all the answers and send them to peter@geotrailing.com. All correct answers qualify for an entry to our free prize draw, held every month.

Catch the bus from Chapel Street Berwick (235) and alight at Burnmouth. Our Trail submitted by Tony Warren follows the cliff tops on the return to Berwick. There is a wealth of interest to keep our attention, seabirds of all kinds including Puffins, you may even see seals basking on the rocks below, and there are wild flowers in abundance. The total length of the walk is 13KM with a total ascent of 480M as the footpaths undulate along the cliffs.

Using a GPS on a Geotrail

Enter your grid reference as a waypoint on your GPS, Name and save. Locate the grid reference on your map. Ask your GPS to GOTO. Remember a GPS will only give you a straight line bearing to your destination; you will need to refer to your map, use footpaths on the ground and contour.
