“Langstrath from Stonethwaite - Borrowdale “

Grade Moderate

We give you location grid references and easy questions to answer. All you have to do is walk the trail, collect all the answers and send them to peter@geotrailing.com. All correct answers qualify for an entry to our free prize draw, held every month.

Park if you can at Stonethwaite, make it an early start as there is limited parking here, G/R 272/137. Use O/S Leisure Map No 4. This trail passes through Alfred Wainright's most perfect mile in the lakes, no cars mar these valleys, and all is tranquil. Even though the height gain is a modest 246M, you feel right in the heart of the fells with mountains all around. The distance is 10.3KM and to get the best from the day allow 4 Hours for plenty of stops to admire the views, which are stunning.

Using a GPS on a Geotrail

Enter your grid reference as a waypoint on your GPS, Name and save. Locate the grid reference on your map. Ask your GPS to GOTO. Remember a GPS will only give you a straight line bearing to your destination; you will need to refer to your map, use footpaths on the ground and contour.
